NARRATIVE

Developed an AI-powered platform to solve the challenge of managing students' career preparation, learning, and interview activities across multiple platforms. Designed the application using React.js and Django REST APIs with MySQL, integrating Generative AI for resume analysis, career guidance, interview preparation, PDF chat, roadmap and timetable generation. Personally developed the frontend components, API integrations, authentication, dashboard, and AI-driven modules. Automated resume analysis, document generation, and personalized guidance, ***reducing manual effort by 80%****.*
